

Summer Games Electrolyte™

If your horse is sweating, he needs Summer Games Electrolyte. Originally created for the horses competing at the Olympic Games, this formulation is a combination of minerals similar to the levels typically lost in sweat. Help your horse beat the heat with Summer Games Electrolyte.

Summer Games Concentrated electrolyte
Supports normal hydration
Contains minimal sugar

Directions for Use:

Level of Training	Normal Environment (oz/day)	Hot, Humid Environment (oz/day)
Rest	0	1
Light	1	1-2
Moderate	2	2-3
Heavy	3	3-4

Summer Games Electrolyte is a powder and can be added as a top-dressing on the daily grain ration.

Summer Games Plus™

Horses sweat! As they sweat, horses lose not only water but also vital electrolytes. Using the same formula in Summer Games Electrolyte, Summer Games Plus replaces key electrolyte and contains buffering agents that support a normal gastric environment. Summer Games Plus is packaged in an easy-to-use syringe so administration is fast and accurate.

Summer Games Plus

- Concentrated buffered electrolyte
- Unique formula
- Supports normal gastric environment
- Contains minimal sugar
- Convenient oral syringe
- Directions for Use:
