Flax Appeal

What Mother Nature Would Feed Your Horse

Flax Appeal is more than just another energy supplement. Every nutritious mouthful of Flax Appeal supplies a rich blend of Omega 3 and Omega 6 fatty acids combined with highly digestible fibre and protein sources with added Vitamin E. All that in a palatable convenient form that is easy to add to your regular ration without any further processing.

Whether you need to add a little more weight to a “hard keeper,” supply extra energy without more grain for your hard working performance horse or just ensure good health and a lustrous shiny coat for your favourite pleasure horse, **Flax Appeal** is the choice of a growing number of horse owners.
