## Features and Benefits of Competition Plus

**Formulated with highly digestible fibre, fat and grain sources other than corn.**

❖ *While a blend of energy sources are included, rapidly available carbohydrates are emphasized to support maximum speed and power.*

### **Balanced vitamin and chelated mineral content**

*Supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements. Chelated minerals are more readily and thoroughly absorbed for improved health and performance.*

**Manufactured with a proprietary form of Saccharomyces Cerevisiae a prebiotic with a wide body of research.**

*The addition of a proprietary yeast culture improves digestion of fibre and promotes more efficient use of nutrients.*

**Contains a full complement of B Vitamins and amino acids**

*Meets all of the daily maintenance requirements for B Vitamins including biotin and provides full spectrum of essential amino acids*

### **Formulation is fixed**

*A fixed formula means that we do not substitute inferior low cost ingredients for superior ingredients to lower the cost of production.*

Competition Plus is formulated with carefully selected ingredients to ensure maximum palatability and consistency.

# Competition Plus Description

Competition Plus is a high performance feed for horses active in high intensity disciplines requiring large amounts of energy. Competition Plus is corn free with added beet pulp to reduce the overall starch level. Energy is from carbohydrates but also from highly digestible fibre sources called “super fibres” such as beet pulp which help to reduce the carbohydrate load in the stomach. Competition Plus also has added fat in the form of soy oil to substantially increase the overall energy level.

Competition Plus has earned a reputation among many top trainers and owners for supplying total nutrition in a very palatable form that horses take to readily and stay on during training and competition.

## Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependent on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of *Competition Plus* fed daily below ½ pound per 100 pounds of the horse's bodyweight add ¼ pound (115 grams) *Brooks Enhancer or All Phase 20*. For specific feeding recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
