

# Competition Plus

**Optimum energy for optimum performance without corn!**

**textured**

## Features and Benefits

- ✓ Formulated with a **blend of energy sources** with an emphasis on rapidly available carbohydrates to support maximum speed and power without corn.
- ✓ High quality **added fat from soy oil** adds maximum sustainable calories for a championship performance.
- ✓ A **well-balanced level of vitamins and chelated minerals** provide micronutrient fortification lacking in forages alone and eliminates the need for expensive supplements when fed at recommended levels.
- ✓ A proprietary form of *Saccharomyces Cerevisiae*, a **prebiotic** with a wide body of research improves digestion of fibre and promotes more efficient use of nutrients.
- ✓ A full complement of B Vitamins including biotin supplies the daily maintenance requirements and a full spectrum of essential amino acids supplies protein for performance and muscle repair.

Brooks **Oxiguard** System of natural source Vitamin E and organic selenium work synergistically as effective antioxidants to minimize muscle soreness and fatigue.

*Competition Plus is a fixed formula manufactured in a drug free environment!*

# Competition Plus Description

Competition Plus is a high-performance feed for horses active in high intensity disciplines requiring large amounts of energy. Competition Plus is corn free with added beet pulp to reduce the overall starch level. Energy is from carbohydrates but also from highly digestible fibre sources called “super fibres” such as beet pulp which help to reduce the carbohydrate load in the stomach. Competition Plus also has added fat in the form of soy oil to substantially increase the overall energy level.

Competition Plus has earned a reputation among many top trainers and owners for supplying total nutrition in a very palatable form that horses take to readily and stay on during training and competition.

## Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition

| Mature Weight    | 900 lbs. (400 kg.)               | 1100 lbs. (500 kg.)              | 1320 lbs. (600 kg.)              |
|------------------|----------------------------------|----------------------------------|----------------------------------|
| Light work *     | 4.0 – 8.0 lbs. (1.8 - 3.6 kg.)   | 6.0 – 10.0 lbs. (2.75 - 4.5 kg.) | 7.0 – 12.0 lbs. (3.2 - 5.5 kg.)  |
| Moderate work ** | 5.0 – 10.0 lbs. (2.25 - 4.5 kg.) | 7.0 – 12.0 lbs. (3.2 - 5.45 kg.) | 8.0 – 14.0 lbs. (3.6-6.40 kg.)   |
| Heavy work ***   | 6.0 – 11.0 lbs. (2.70 - 5.0 kg.) | 8.0 – 13.0 lbs. (3.6-5.9 kg.)    | 9.0 – 16.0 lbs. (4.0 - 7.25 kg.) |

\* ie. jogging, trail riding, pleasure etc.

\*\* ie. dressage, jumping, cutting, roping etc.

\*\*\* ie. racing, polo, eventing etc.

*Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependent on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of **Competition Plus** fed daily below  $\frac{1}{2}$  pound per 100 pounds of the horse's bodyweight add  $\frac{1}{4}$  pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific feeding recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration

A list of ingredients is available by contacting the manufacturer.
