Leading Edge

(Textured)

High quality fibre, multiple fat sources and controlled starch for the demanding needs of competitive performance horses and horses in training.

Fortified with Brooks exclusive **Oxiguard** system of natural source Vitamin E and organic selenium!

Bioavailable Vitamin E and organic selenium work synergistically as effective antioxidants to minimize muscle soreness and fatigue.

Our commitment to quality drug free manufacturing is your satisfaction guarantee!

Guaranteed Analysis

Crude Protein (min.)	13 %
Crude Fat (min.)	8.5 %
Crude Fibre (max.)	14 %
Calcium (min.)	.80 %
Phosphorus (min.)	.60 %
Sodium (min.)	.40 %
Copper (act.)	50 ppm.
Zinc (act.)	150 ppm.
Vitamin A (min.)	11000 IU/KG.
Vitamin D (min.)	1100 IU/KG.
Vitamin E (min.)	275 IU/KG.
Selenium	.45 ppm.

❖ *NSC (Controlled)*

Features and Benefits of Leading Edge

❖ Formulated with a controlled starch level, highly digestible fibre and multiple fat sources.

Energy from digestible sources of fibre and multiple fat sources provide a very high level of energy while controlled starch and sugar levels are ideal for the demands of competition and training.

Balanced vitamin and chelated mineral content

Supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements. Chelated minerals are more readily and thoroughly absorbed for improved health and performance.

Manufactured with a proprietary form of Saccharomyces Cerevisiae a prebiotic with a wide body of research.

The addition of a proprietary yeast culture improves digestion of fibre and promotes more efficient use of nutrients.

Contains a full complement of B Vitamins and amino acids

Meets all of the daily maintenance requirements for B Vitamins including biotin and provides full spectrum of essential amino acids

Formulation is fixed

A fixed formula means that we do not substitute inferior low cost ingredients for superior ingredients to lower the cost of production.

Leading Edge is formulated with carefully selected ingredients to ensure maximum palatability and consistency.

Guaranteed Quality

Ultimate Performance

Leading Edge Description

Leading Edge is a cutting edge feed that is a result of substantial research and technology. Leading Edge is formulated for horses active in high intensity disciplines requiring large amounts of energy. Leading Edge draws energy primarily from highly digestible fibre sources called “super fibres” and multiple fat sources including flax, soy oil, and rice bran. Leading Edge has a controlled starch and sugar level making it ideal for training young horses. The controlled NSC formula helps reduce muscle problems while the multiple fat sources and “super fibres” still provide substantial energy for active performance horses.

Leading Edge has earned a reputation among many top trainers and owners for supplying total nutrition in a very palatable form that horses take to readily and stay on during training and competition.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-12 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)
Heavy work ***	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)	13-17 lbs. (6.0-7.75 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

*** ie. racing, polo, eventing etc.

*Note: Warmblood and Draft type horses may require different amounts from light horse breeds.
Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependent on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of *Leading Edge* fed daily below ½ pound per 100 pounds of the horse’s bodyweight add ¼ pound (115 grams) *Brooks Enhancer or All Phase 20*. For specific feeding recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse’s bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
