

Phase III

Balanced energy, ultimate performance for hard working performance horses!

(Pelleted or textured)

A Kentucky Equine Research Formulated Feed

Fortified with Brooks exclusive **Oxiguard** system of natural source

Vitamin E and organic selenium!

Bioavailable Vitamin E and organic selenium work synergistically as effective antioxidants to minimize muscle soreness and fatigue.

Our commitment to quality drug free manufacturing is your satisfaction guarantee!

Guaranteed Analysis

Crude Protein (min)	12 %
Crude Fat (min)	6 %
Crude Fibre (max.)	10 %
Calcium (act.)	.70 %
Phosphorus (act.)	.60 %
Copper (act.)	50 ppm.
Zinc (act.)	150 ppm.
Sodium (act.)	.4 %
Vitamin A (min.)	11000 IU/KG.
Vitamin D (min.)	1100 IU/KG.
Vitamin E (min.)	220 IU/KG.
Selenium (min. added)	.45 ppm.

❖ **NSC level (Optimized)** Nutritional profile of pelleted Phase III may vary slightly.

Features and Benefits of Phase III

Formulated with high quality protein and energy sources.

❖ While a blend of energy sources are included, rapidly available carbohydrates are emphasized to support maximum speed and power.

Balanced vitamin and chelated mineral content

Supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements. Chelated minerals are more readily and thoroughly absorbed for improved health and performance.

Manufactured with a proprietary form of Saccharomyces Cerevisiae a prebiotic with a wide body of research.

The addition of a proprietary yeast culture improves digestion of fibre and promotes more efficient use of nutrients.

Contains a full complement of B Vitamins and amino acids

Meets all of the daily maintenance requirements for B Vitamins including biotin and provides full spectrum of essential amino acids

Formulation is fixed

A fixed formula means that we do not substitute inferior low cost ingredients for superior ingredients to lower the cost of production.

Textured and pelleted Phase III are formulated with carefully selected ingredients to ensure maximum palatability and consistency.

Phase III Description

Phase III is a high performance feed for horses active in high intensity disciplines requiring large amounts of energy. While a blend of energy sources is included, rapidly available carbohydrates are emphasized to support maximum speed and power. Phase III also has added fat in the form of soy oil to substantially increase the overall energy level. Phase III is formulated for hard working athletic horses requiring maximum energy from various sources in a very palatable form.

Many top trainers have demonstrated the performance quality, the palatability, and the total nutritional value of Phase III. Horses take to Phase III readily and stay on it through rigorous training and competition.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-12 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)
Heavy work ***	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)	13-17 lbs. (6.0-7.75 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

*** ie. racing, polo, eventing etc.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds.

Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependent on the body condition, the metabolism and the type of activity the horse is used for. For each pound of **Phase III** fed daily below ½ pound per 100 pounds of the horse's bodyweight add ¼ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
