NSC (moderate)	

### Features and Benefits of Competition Plus

**Formulated with highly digestible fibre, fat and grain sources other than corn.**

Generates calories from several metabolic pathways to optimize energy and minimize glycemic response from starch.

**Formulated with a balance of absorbable vitamins and minerals.**

Chelated minerals are more thoroughly absorbed for improved performance and health, particularly under stressful conditions. No other mineral or vitamin supplementation is required.

**Made with Yea Sacc.**

Addition of proprietary yeast culture improves digestion of fibre and promotes more efficient use of feedstuffs.

**Enriched with Vitamin E and a bio-available sel-plex form of Selenium.**

Natural Vitamin E and Selenium act as antioxidants to ward off muscle problems such as tying up.

**Carefully selected ingredients to maximize palatability.**

Competition Plus is an exceptionally palatable feed.

# Competition Plus Description

Competition Plus is a high performance feed for horses active in high intensity disciplines requiring large amounts of energy. Competition Plus is corn free with added beet pulp to reduce the overall starch level. Energy is from carbohydrates but also from highly digestible fibre sources called “super fibres” such as beet pulp which help to reduce the carbohydrate load in the stomach. Competition Plus also has added fat in the form of soy oil to substantially increase the overall energy level.

Competition Plus has earned a reputation among many top trainers and owners for supplying total nutrition in a very palatable form that horses take to readily and stay on during training and competition.

## Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-12 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)
Heavy work ***	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)	13-17 lbs. (6.0-7.75 kg.)

\* ie. jogging, trail riding, pleasure etc.

\*\* ie. dressage, jumping, cutting, roping etc.

\*\*\* ie. racing , polo, eventing etc.

*Note: Warmblood and Draft type horses may require different amounts from light horse breeds.  
Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependant on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of **Competition Plus** fed daily below ½ pound per 100 pounds of the horse’s bodyweight add ¼ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific feeding recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse’s bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
