Features and Benefits of Leading Edge

Formulated with moderate starch level, highly digestible fibre and multiple fat sources.

Energy from digestible sources of fibre and multiple fat sources provide a very high level of energy while moderate starch and sugar levels are ideal for the demands of competition and training.

Formulated with a balance of absorbable vitamins and minerals.

Fortified with essential minerals and vitamins reducing the need for expensive supplements. Chelated minerals are more thoroughly absorbed for improved performance and health.

Contains whole grain flax, stabilized rice bran & soy oil.

High quality fats including Omega 3 from flax supply ample calories for performance reducing the need for high starch ingredients.

Enriched with natural source Vitamin E and Selenium.

Natural Vitamin E and selenium act as antioxidants to ward off muscle problems such as tying up.

Carefully selected ingredients to maximize palatability.

Horses accept Leading Edge readily and stay on during competition and training.

Leading Edge Description

Leading Edge is a cutting edge feed that is a result of substantial research and technology. Leading Edge is formulated for horses active in high intensity disciplines requiring large amounts of energy. Leading Edge draws energy primarily from highly digestible fibre sources called “super fibres” and multiple fat sources including flax, soy oil, and rice bran. Leading Edge has a moderate starch and sugar level making it ideal for training young horses. The low NSC formula in Leading Edge helps reduce muscle problems while the multiple fat sources and “super fibres” still provide substantial energy for active performance horses.

Leading Edge has earned a reputation among many top trainers and owners for supplying total nutrition in a very palatable form that horses take to readily and stay on during training and competition.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-12 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)
Heavy work ***	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)	13-17 lbs. (6.0-7.75 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

*** ie. racing, polo, eventing etc.

*Note: Warmblood and Draft type horses may require different amounts from light horse breeds.
Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependant on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of **Leading Edge** fed daily below ½ pound per 100 pounds of the horse’s bodyweight add ¼ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific feeding recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse’s bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
