Features of Brooks Release (Un-Ti)

Formulated with highly digestible fibre and fat sources.

Highly digestible sources of fibre and high quality fat provide a low glycemic but calorie rich diet.

Balanced with vitamins and chelated minerals.

Fortified to ensure horses receive vital macro and micronutrients. Chelated minerals are more readily and thoroughly absorbed for improved performance and health.

Contains Equi-Jewel High Fat Stabilized Rice Bran.

Equi-Jewel is a calorie dense energy source that provides calories, digestible fibre and rice bran oil for a healthy coat.

Enriched with natural source Vitamin E and Selenium.

Natural source vitamin E and Selenium act as antioxidants to ward off muscle problems such as tying up.

Carefully selected ingredients to maximize palatability.

Readily accepted by hard working and stressed horses.

Guaranteed Quality

Ultimate Performance

Release (Un-Ti) Description

Release is a high performance feed for horses active in high intensity disciplines requiring large amounts of energy with a reduced carbohydrate level. Release draws energy primarily from digestible (super) fibres and high quality fats including rice bran. The low glycemic formula of Release also makes it an ideal feed for horses prone to *RER (Recurrent Exertional Rhabdomyolysis,)* *PSSM (Polysaccharide Storage Myopathy,)* or *Cushings disease* particularly where weight gain is desired in a low soluble carbohydrate formula.

Release has earned a reputation among many top trainers and owners for supplying low glycemic energy with complete balanced nutrition in a palatable form that helps keeps horses training every day.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-12 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)
Heavy work ***	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)	13-17 lbs. (6.0-7.75 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

*** ie. racing , polo, eventing etc.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependant on the body condition, the metabolism and the type of activity the horse is used for. For each pound of *Release* fed daily below ½ pound per 100 pounds of the horse's bodyweight add ¼ pound (115 grams) *Brooks Enhancer* or *All Phase 20*. For specific recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
