### Features and Benefits of Villager 12% Sweet Feed

A moderate energy low NSC formula enhanced with highly digestible fibre and added fat.

Versatile concentrate with varied energy sources reduces the risks associated with feeding a high starch and sugar concentrate.

Manufactured to the highest industry standards.

High quality ingredients and drug free facilities contribute to your horse's safety and healthy lifestyle.

Balanced with chelated minerals and vitamins.

Chelated minerals are more readily and thoroughly absorbed for improved performance and health. No other mineral or vitamin supplementation is required when fed as directed.

Made With Yea Sacc.

Addition of proprietary yeast product improves digestion of fibre and promotes more efficient use of feedstuffs.

Carefully selected ingredients to maximize palatability.

Readily accepted by all types of horses.

## Villager 12% Sweet Feed Description

Villager 12% Sweet Feed is a value added sweet feed for moderately active horses. The formulation draws substantial energy from carbohydrates and from digestible fibre and added fat in the form of soy oil. The moderate carbohydrate level provides rapidly metabolized energy while the added fat and digestible fibre increases the energy density and promotes digestive health. The complete nutrient balance of minerals and vitamins helps maintain long-term health particularly of the hair and hooves.

Villager 12% Sweet Feed is manufactured with carefully selected ingredients making it a very good choice for finicky horses to supply total nutrition in a very palatable form that horse take to readily and stay on.

### Feeding Suggestions

For best results feed between 1 and 3 pounds per day per 220 pounds of bodyweight.

Mature Weight	880 lbs. (400 kg.)	1100 lbs. (500 kg.)	1320 lbs. (600 kg.)
Idle horses	3-5 lbs. (1.5-2.5 Kg.)	4-6 lbs. (2-3 Kg.)	5-7 lbs. (2.5-3.5 Kg.)
Light work *	4-8 lbs. (2-4 kg.)	6-10 lbs. (3-5 kg.)	8-12 lbs. (4-6 kg.)
Moderate work **	6-10 lbs. (3-5 kg.)	8-12 lbs. (4-6 kg.)	10-14 lbs. (5-7 kg.)

\* ie. jogging, trail riding, pleasure etc.

\*\* ie. dressage, jumping, cutting, roping etc.

*Note: Warmblood and Draft type horses may require different amounts from light horse breeds.  
Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependant on the body condition, the metabolism and the type of activity the horse is used for. For each pound of **Villager 12%** fed daily below ½ pound per 100 pounds of the horse's bodyweight add ¼ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
