

Triple C for Success

Triple C Stables is the business address and passion of Carly Campbell-Cooper. Located in the beautiful countryside near Burlington Ontario is a magnificent facility that has been Carly's business home for just over a year. With a huge indoor arena, spacious stalls and several outdoor rings and paddocks it's an ideal venue for Carly's coaching, training and showing aspirations.

Carly has been riding and showing horses since her first pony named Mootsie came to her from a neighbour.

Graduating through youth classes, young rider championships and eventually to the Grand Prix ring Carly has been a champion at every level. She credits several people for her success from her parents to Beth Underhill who has been a mentor for several years. This past season with her recent purchase of a Belgian Gelding named "Fiero" her accomplishments have included several top five finishes at Angelstone and Palgrave as well as numerous highlights from Carly's students.

Carly doesn't hesitate to emphasize the importance of nutrition particularly with a "quirky" horse like Fiero.

"He's a high energy horse that competes at the highest level so I needed a feed that enabled him to perform to his capability while staying focused. I've found Brooks Leading Edge has been great for him. I also like "Fit & Fibre" for a lot of my hunters and school horses. I'm very happy with the condition and attitude of my horses on Brooks's rations."

The future? Carly is concentrating on perfecting the performance of "Fiero" while hoping to find a second horse with equal ability. "The Grand Prix ring is where my heart lies" Carly stresses.

At Brooks we're proud to be the nutrition partner of successful young riders like Carly. Our commitment to be the best value feed manufacturer in Canada is in every bag of feed we make.
