

## A True Place For Standardbreds

Located in Bruce County horse country near Walkerton Ontario is a 74-acre sanctuary, maternity ward and training centre exclusively for Standardbreds, aptly named “***A Place For Standardbreds***”. Operated with meticulous attention to detail by Heather Shaldoff and George Quartarone, the farm offers a 38 stall training centre with a ½ mile track as well as full service mare care from breeding to foaling and even facilities for weanlings and yearlings.

Artificial insemination service from Ontario Sires is available with special considerations for maiden mares. Large foaling stalls, 24 hour observation and veterinary supervised post foaling care ensure the best possible start for prospective champions.

“We pay close attention to every detail, Heather points out. We want our clients to feel that we have provided the absolute best facilities and care possible.”

With such a diversity of horses, feeding is bound to be a significant challenge not only from the point of view of choice but also cost. Brooks representative Laurie Clarke applied her practical feeding knowledge and confidence in the quality and consistency of the Brooks feed line to suggest programs for each stage of care.

Heather is very pleased with the results. “The feed is surprisingly economical, very consistent, and the horses look great. Heather says. We really appreciate the support we get from Brooks rep. Laurie Clarke as well”

Brooks Feeds has much in common with excellent facilities like “A Place For Standardbreds.” Each is dedicated to offering the best products and service, measurable results and true value as ingredients for success. Thanks to “A Place For Standardbreds” for their confidence and trust.
